

UP4

- new flexible 4" kit with great sound

Ultimate series UP4 is a new 10 cm (4") 2-way component with Kevlar cone.

Can be installed in new BMW cars like F30, F10, F20, F25 and E84 (where the door speakers are attached with four screws.)

Suitable for most cars designed for 4" speakers

The tweeter fits directly in the mirror triangle position/door position of the newest BMW models.

- A 200 Hz HP-filter can be switched IN when used in BMW cars with subwoofer.
- Neodymium magnet system.
- Small installation depth
- Powerful neodymium magnet system
- Filter boxes with selectable tweeter level in two steps
- 25 mm silk dome tweeter T25
- Grilles are included.
