

Product Name : **MINIATIONS**  
 Product Type : **ES No.62 Mk2**  
 Description : 2 way component with 50 mm fullrange and 165mm midbass, no crossover.  
 Date / Price : 2014-05-28 / **USD 699**

 ES No.62Mk2 adalah generasi kedua daripada seri ES speaker, dibandingkan pendahulunya, tipe ini mempunyai kelebihan ;

1. Fullrange menggunakan generasi ke tiga (ES No.62 menggunakan fullrange aluminum) yang berbahan kertas dan dust-cap dome sutra seperti layaknya sebuah tweeter.
2. Apabila pada tipe pendahulu menggunakan boks plastik, tipe ini menggunakan boks aluminum CNC.
3. Midbass terdahulu menggunakan konus optical fiber, sedangkan tipe ini menggunakan bahan komposit berdasar kertas.
4. Dilengkapi dengan ring pemasangan 8 mm terbuat dari aluminum. Grill menggunakan model heksagonal besar dengan pengikat keliling aluminum.
5. Pasif crossover dijual terpisah & dibuat sendiri (rangkaian terlampir).

 ES No.62 Mk2 is a second generation of the previous ES No.62. Compare to the previous model, this new model improve in ;

1. Third generation fullrange with paper and silk dome dust-cap (it is like a normal tweeter). While ES No.62 is using an aluminum cone fullrange.
2. In the previous model we use plastic housing, while in this new type we use CNC aluminum housing.
3. ES No.62 is using a midbass from optical fiber cone, while this new model is using a composite paper base cone.
4. Equipped with 8 mm tapped screw hole aluminum mounting spacer. Speaker grille is using large hexagonal hole with aluminum mounting.
5. Passive crossover is an option, you can build by your own based on circuit diagram that we provide. You can use an expensive part!

New, fullrange, based on ES No.F51 fullrange, now with new engrave ring and KS300 OCC hook-up wire!

KS300 OCC Hook-up wire

It is all in the box!  
 The fullrange now equipped with 240ml, 8mm aluminum CNC housing, easier to build and mount. Improve sound quality compare to fiberglass.

The midbass of ES No.62 Mk2, the successor of CFS 4 Optical-fiber cone

A new large hexagonal grille with new aluminum mounting grill. Exclusive looks and improve performance.

An open back die-cast basket for easy to 'breathe' midbass, with push spring terminals.

Special made high roll rubber surround and a new composite cone, for better tonality and more linear movement.

An 8 mm aluminum pre-fabricated with tapped screw hole spacer ring for easy installation.
