

Addendum to the news 2016.0007 - GZRC 165AL

Additionally to the lately introduced GZRC 165AL, the midwoofer GZRK 16AL and the tweeter GZRT 25T each sold in pairs will be available shortly to create active system solutions.

Attached you will find the datasheets for the 2-way system, the midwoofers and for the tweeters.

About Ground Zero

Founded in the late 90s, Ground Zero matured to become one of most respected car audio brands in the world. Ground Zero is trademarked globally and distributed in over 60 countries. The product range encompasses speakers, subwoofers and amplifiers for High End SQ (Sound Quality), SPL (Sound Pressure Level) and a vast range of essential sound components - all of them engineered in Germany. In countless tests and reviews, many of our more than 300 products have earned awards and have been consistently placed by the winner circle with outstanding ratings for price to performance ratio, quality and sound.
